Objective

Cybersecurity graduate student with a strong interest in ethical hacking, cyber investigations, and programming. Extremely diligent and able to pick up new technical skills quickly. Skilled in addressing tasks efficiently and professionally, while also ensuring thorough and accurate documentation of processes and findings.. Currently, I am pursuing a Masters in Cybersecurity Technology where I consistently learn cutting edge technologies and techniques used in the field. Some of my notable skills are:

- Experience in object-oriented programming e.g. C++
- Experience with scripting languages e.g. PowerShell, Python, and Bash
- Versed in various Debian 12.x security toolkits e.g. Kali Linux, ParrotSec
- Ability to communicate vulnerability findings and recommendations with management.
